

Donation

Equipments

Institute of Horticulture Technology, located in Greater Noida, Uttar Pradesh and Mandira, Kamrup, Assam undertakes R&D projects on Technology Demonstration of Horticultural Crops in main hubs and farmers' fields. If you have any equipment like PCR, Elisa Machine, Microscopes, Incubators, Spectrophotometers, Computers or any other equipment you want to donate. IHT will turn your donated equipment into working equipments by refurbishing, if needed, for use in our labs for the societal use. Our team will pick up the equipment from your organization. If needed IHT will destroy data on any hard drives to protect your private information. Contact: Dr. Virendra Patel Mob.: 8860621157

Books and other Literature

If you have books and literature which you feel will benefit the society, kindly donate to Institute of Horticulture Technology, main campus in Greater Noida or in northeast Centre in Mandira, Assam. Being able to give back to those who will really be benefitted in academic, research or societal development helps you achieve a greater sense of personal satisfaction and feels good. When you donate books, you are sharing knowledge as well as encouraging thought and imagination.

Once you decide to donate the books kindly mail or call us we will arrange to take the books from your place and acknowledge it by a mail letter to you and upload the same on our website.

We have received the excellent collection of the books donated by Dr. Y.S.Ahlawat, Former Head, Division of Plant Pathology, Indian Agricultural Research Institute, New Delhi and Scientist of International repute

IHT is grateful for his contribution of books for our library. Every single book is of immense value and they are something that all Plant Pathologist/Virologist will use for academic/research purpose

Thank you so much! For his generosity.
