Institute of Horticulture Technology

Institute Of Horticulture Technology established in 2009 is a premier Institute for conducting Educational & Research Programmes in Modern Horticulture and providing Residential Capacity Building Trainings for opening of numerous opportunities for career building in India and abroad. The Institute has Main Campus in Greater Noida, NCR, Delhi, India besides a Centre at Mandira, Kamrup, Assam.

We envision to develop institution of excellence in teaching, training, research and innovation in the field of horticulture and allied sectors to bring advance horticulture technologies for economic prosperity to agriculturist. The institute works to develop sustainable farming system for improving productivity.

Accommodation

We have in-house residential facility with separate wings for male and female trainees. The rooms are twin sharing basis and single seated with round the clock electricity supply and 100% power backup. Rooms are hygienic, aerated, well illuminated and equipped with all basic amenities. Hostel has ample space and modern facilities for dining, recreation and to promote the well-being of trainees so that they feel comfortable during their stay. IHT has high-speed wi-fi connectivity, 24hrs power backup and 24/7 security guards on campus.

Health & Wellness

Succeeding at IHT means staying healthy-mind and hand, body and soul. IHT has a round-the clock health care medical facility on campus for students / employees / faculty.

Housing & Dining

Our residence and rooms are well furnished and equipped with all the amenities. Dining at IHT is about choice and healthy food options. Hygienic dining hall with clean and best cooking practices.

Sports Facilities

While coping with the highly demanding study environment, one needs to be healthy, both emotionally and physically. Therefore IHT has a modest range of sport facilities that help the students maintain physical fitness and spirit.

Infrastructure

Administrative Block

The main building with a modern landscape is divided into 7 parts – instructional area, classrooms, laboratories, administrative block, faculty area, hostel and utility area. The complete area is hygienic, well illuminated with green building concept, wide corridor, classrooms well equipped with comfortable sitting area and modern training aids. Museums showcasing different inputs used in protected cultivation with respect to the greenhouse structure function and crop production modules. The classrooms are spacious and comfortably accommodate 50 persons at a time and different executive areas for smaller training groups.

Open area-lawn with course inputs for interaction

Complete area Wi-Fi enabled

Wired and Wireless communication facility

Classrooms

There are 8 classrooms in institute premises and two classrooms are at Technology Park for field practical classes. There are a number of classrooms in the institute premises where 230 students can have classes at a time and two having capacity of 150 are at Technology Park for field practical classes. The class rooms are equipped with modern teaching aids like LEDs, projectors, whiteboards, Audio System etc.

Innovative Laboratory

The lab is a strategic and goal-focused unit where trainees work and interact with the faculty focused on a specific area like greenhouse components, insect identification, microscopy for plant and other associated material as needed in the training programmes. The lab houses innovative technological inputs for the farmers and trainers to interact.
